

# CLOROX PROFESSIONAL SCREEN+ SANITIZING WIPES

**Clorox Screen+ Sanitizing Wipes** are formulated to clean and sanitize electronic devices without damaging sensitive surfaces. These EPA-registered wipes kill 99.9% of bacteria in 10 seconds while removing fingerprints, dust, and smudges from screens and high-touch electronics. The alcohol-free and bleach-free formula is designed for safe use on tablets, laptops, phones, keyboards, and other nonporous device surfaces. A quick-dry, low-lint wipe material helps prevent streaking and scratching, making these suitable for shared devices in classrooms, offices, and public environments.

- **Safe for Electronics** - Alcohol-free and bleach-free formula
- **Fast Action** - Kills 99.9% of bacteria in 10 seconds
- **Low Lint** - Quick-dry wipe reduces streaking and residue
- **Ready to Use** - Pre-moistened wipes for easy device cleaning
