Heavy Duty Foaming Degreaser Concentrate

Concentrated heavy duty foaming degreaser produces an abundance of thick foam that will maximize contact time and cling to vertical surfaces to quickly remove all types of animal fats and associated soil. Continued use of Spray Foam Ultra will effectively remove old film residues in food prep areas. This product does not contain caustic or chlorine, reducing physical and chemical hazards for employees. Is noncorrosive to equipment. Great for use in supermarkets, food processing plants, and other food service environments.

Features

- Noncorrosive to equipment
- Clinging foam allows easy cleaning of vertical surfaces
- Free rinsing leaving no residue or film

Directions for Use

Recommended for use in food prep areas and food processing operations.

1. Dilute (1:256) 1/2 US oz/US Gal of water
2. Scrape heavy accumulations of food or grease
3. Apply to surface to be cleaned
4. Use mop, brush, sponge to agitate
5. Rinse well with water
